EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Bindseil on 2/2/07.

The application has been amended as follows:

In the claims:

- Claim 1, line 4, "to independently hold a bushing to be installed within" has been changed to read, "to retain a bushing during installation within".
- Claim 1, line 7, "configured to apply to force" has been changed to read, "configured to apply a force".
- Claim 2. In line 1, "wherein said portion" has been changed to read, "wherein said gripping portion".
- Claim 8, line 3, "to independently hold an annular component to be installed within" has been changed to read, "to retain an annular component during installation within".
- Claim 14, line 3, "configured to independently hold" has been changed to read, "configured to retain".
- Claim 14, in the last line, "are pivotally operated." has been changed to read, "are pivotally operated; and wherein said pliers is configured to

retain a bushing during installation within a drive selector linkage assembly of an automobile”.

- Claim 21, line 1, “Plies for” has been changed to read, “Pliers for”.
- Claim 21, in line 3, “to independently hold a part to be installed within” has been changed to read, “to retain a part during installation within”.
- Claim 21, in the last line, “are pivotally operated.” has been changed to read, “are pivotally operated; and wherein said pliers is configured to retain a bushing during installation within a drive selector linkage assembly of an automobile”.

2. During the telephone interview Applicant convincingly argued that the pliers is made specifically retain a part during installation within a drive selector linkage assembly of an automobile, which is not shown in the prior art. The following therefore, is an examiner’s statement of reasons for allowance: The art of record considered as a whole alone or in combination neither anticipates nor renders obvious a pliers configured to retain a bushing during installation within a drive selector linkage assembly of an automobile, together in combination with the rest of the limitations set forth in the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alvin J. Grant whose telephone number is (571) 272-4484. The examiner can normally be reached on Mon-Fri 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph J. Hail can be reached on (571) 272-4485. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
